

- **FLM TV signed up on April 16, 2025, and made the first annual payment.**
- **On April 16, 2025, customercare@lightcast.com received this email from Ed:**
 - “kindly please charge the \$440 set up fee at the same credit card on the file that you have”
- **[Our Customer Care agent] led FLM TV’s Account Training Call on April 23, 2025**
 - <https://player.lightcast.com/3IzN5kDN>
 - Already had content uploaded
 - 898 GB of TC remaining (had used 102 GB of TC)
 - 947 GB of Storage remaining (53 GB of Storage were in use)
 - No questions regarding their TC/Storage consumption were asked
 - Based on this recording, the FLM TV team was super excited about working with [Lightcast.com](https://lightcast.com) and ready to get started on app development tasks.
 - [Our Customer Care agent] answered all of the general questions, and the FLM Team praised [Lightcast.com](https://lightcast.com) and her repeatedly during this meeting
- **Received access to “FLM TV” Google Developer account on May 15, 2025**
 - It still needs to be verified, though
- **On May 15, 2025, someone named Dale emailed customercare@lightcast.com in response to the automated “Thank you for submitting your Fire TV Questionnaire” email:**
 - “I am trying to figure out the space and why we were directed to get a dropbox if it does not play a part in storage on the Lightcast app. Dropbox is a nightmare and I am deleting the account. Also after hours of setting up everything, it has come to my attention that the price to add more space is a bit too expensive compared to alternative cloud storage and the same service.”
 - We responded and explained that Dropbox was simply one of the methods for uploading content, and provided an FAQ with the other uploading options. We also asked if there was anything we could do to support with storage needs.
 - To which we received the following back-to-back responses from Zaina:
 - There are some issues I need to address first. We were a bit misled on the amount of content we can upload. Before you do anything further let me discuss this with my partners. I am not sure this plan will work for us. Thank You, Zaina
 - There are some issues I need to address first. We were a bit misled on the amount of content we can upload. Before you do anything further let me discuss this with my partners. I am not sure if this plan and platform will work for us. I am afraid my partners and I were misled. I am not new to this industry so I know how things should go and I know when people are being quietly scammed. I need to clarify some things and it seems this is a religious

situation that uses God's name to drain people of their funds. Nothing I was told is truthful. I am hoping things can be cleared up and some of the answers to people's questions on the support page can be explained because some are very unprofessional. Thank You, Zaina

- Yes, thank you but it does not look like this plan will work for us. And all that we thought we had with the plan, we do not have. I am going to talk things over with everyone. At this time we will put a hold on everything. I can get unlimited space with another media company. 2000 or 1000 GB will not be enough and your pricing is far beyond what it should cost. We may need to cancel. It will not be beneficial to anyone and we were completely misled so someone can make a sale. Zaina
- There are too many misleading problems with Lightcast. Not sure if it is the right platform for us. Too much deception and over-pricing.
- **Based on these responses, our Customer Success team quickly arranged a meeting (on May 20, 2025 between the FLM TV team and their Account Manager, Michael, to discuss and resolve this**
 - Meeting Recording and Summary:
<https://us-75820.app.gong.io/call?id=3894427473566294742>
 - During this meeting, Isaac offered the FLM TV team a match grant on any Transcoding and a 50% discount on any Storage needs.

On May 22, we received the following emails:

the Management of Lightcast Media/Lime Light Media:

This email serves as a final demand for the immediate and complete refund of \$4,490 paid by FLM TV Inc. to your company.

Be advised that our recent Zoom meeting regarding our refund request was recorded in its entirety, with our legal counsel present and observing. Your representatives' conduct during this meeting, including the repeated refusal to address our refund request and the subsequent fabrication of an "app" we never authorized, constitutes clear evidence of fraudulent business practices.

Let me be absolutely clear about the facts:

1. We explicitly informed you that we would not be using your services and formally requested a refund of \$4,490.
2. You deliberately ignored our refund request, instead attempting to push "better deals" we repeatedly declined.
3. We deleted all of our content from your platform, clearly signaling our intent to terminate the relationship. Without authorization, your company retrieved this deleted data and restored it - a serious breach of data privacy practices and a clear violation of our expressed wishes.

4. Without our consent or content, you proceeded to build what appears to be a shell "app" for the sole purpose of justifying the retention of our funds.
5. Your misrepresentations regarding storage capabilities, additional fees, and technical specifications demonstrate a pattern of deceptive practices.

This conduct has crossed the line from poor business practices into actionable fraud and potential data privacy violations. We have already initiated contact with the following authorities:

- Federal Bureau of Investigation (FBI)
- Federal Trade Commission (FTC)
- North Carolina Attorney General's Office
- Consumer Financial Protection Bureau
- Better Business Bureau

Our federal attorney has advised us that your activities potentially violate multiple statutes regarding wire fraud, deceptive business practices, unauthorized data access, and consumer protection laws. The unauthorized retrieval of data we had deliberately deleted adds a particularly concerning dimension to this case.

As the CEO of a media company with significant reach, I have both the obligation and means to warn others about this experience. Absent an immediate refund, I will have no choice but to utilize our television platforms on major networks and all available media channels to share our documented experience with your company.

I have successfully pursued legal action against companies much larger than yours that engaged in similar practices, resulting in their operations being shut down and significant financial penalties.

This situation can be resolved simply: Process a complete refund of \$4,490 to FLM TV Inc. within 24 hours of receipt of this email. Confirmation of the refund should be sent to [your email].

Failure to comply will result in the immediate escalation of all legal and regulatory actions currently pending, as well as public disclosure of our documented experience.

The choice is yours.

Regards,

Zaina J.

Mobile App

Thank you for filling out the Mobile App Questionnaire. It's now under review and will be used for the development of your Mobile App. Should we miss anything, we will get in touch with you.

STEP 1. QUESTIONNAIRE

STEP 2. UPLOAD YOUR GRAPHICS ►

App form locked due to submission of content to our development team. If you need to make changes, please contact customer@lightcast.com.

Do you already have an iOS Mobile App?

Yes. I would like Lightcast to update my existing iOS Mobile App with Lightcast's App Framework. The Lightcast development department will need to have access to your Apple Developer Account. Please create an admin user for "developer@lightcast.com" so we can make the necessary updates for your current app.

Yes, but I would like Lightcast to develop and submit a new iOS Mobile App and not update my existing one. I understand that the same iOS Mobile App name won't be available (App names are unique) unless I remove my existing iOS Mobile App, and that subscribers of my existing iOS Mobile App will need to install my new iOS Mobile App.

The Lightcast development department will need to have access to your Apple Developer Account. Please create an admin user for "developer@lightcast.com" so we can develop and submit your new iOS Mobile App.

Yes. This is just an update to my existing iOS Mobile app built by Lightcast.

No, I don't have an iOS Mobile App yet. I understand I will have to create an Apple Developer account so Lightcast can submit my new App to Apple. [Click here for more info.](#)

Do you already have an Android Mobile App?

Yes. I would like Lightcast to update my existing Android Mobile App with Lightcast's App Framework. The Lightcast development department will need to have access to your Android Developer Account. Please create an admin user for "developer@lightcast.com" so we can make the necessary updates for your current app.

Yes, but I would like Lightcast to develop and submit a new Android Mobile App and not update my existing one. I understand that subscribers of my existing Android Mobile App will need to install my new Android Mobile App.

The Lightcast development department will need to have access to your Google Developer Account. Please create an admin user for "developer@lightcast.com" so we can make the necessary updates for your current app.

Yes. This is just an update to my existing Android Mobile app built by Lightcast.

No, I don't have an Android Mobile App yet. I understand I will have to create a Google Developer account so Lightcast can submit my new App to Google. [Click here for more info.](#)

Web App

Thank you for filling out the Web App Questionnaire. It's now under review and will be used for the development of your Web App. Should we miss anything, we will get in touch with you.

STEP 1. QUESTIONNAIRE

STEP 2. UPLOAD YOUR GRAPHICS ►

App form locked due to submission of content to our development team. If you need to make changes, please contact customer@lightcast.com.

Name/Title for your Web App (max. 30 chars)

FLM TV

Enter the Channel IDs of your VOD/LIVE/AOD Channel(s) which you would like to publish to your Web App. How to find the Channel IDs. Make sure to add the IDs in the order you would like them to appear in the App. After the Web App is published, you can add/remove Channels and re-order Channels anytime via the App Builder.

60997, 60996, 60995, 60994, 60991, 60993, 60992, 61005

About Page - will be displayed within your Web App. Please describe your organization (max. 2400 chars, including spaces)

FLM TV NETWORK was founded with a singular vision: to create an entertainment platform that honors the rich legacy of classic content while embracing the exciting possibilities of today's media landscape.

- Our Story:

What began as a passion project by entertainment industry veterans has evolved into a comprehensive media ecosystem. Recognizing the fragmentation of today's viewing experience, we set out to build a destination where audiences could find everything from timeless classics to cutting-edge live events in one carefully curated space.

- Our Mission:

We believe that great entertainment has the power to inspire, connect, and transform. Our mission is to deliver meaningful content across all genres and formats, preserving cultural touchstones while creating new experiences that resonate with today's diverse audiences.

- What Sets Us Apart:

Unlike traditional networks focused solely on one type of programming, FLM TV NETWORK spans the entire entertainment spectrum. From our flagship FLM Cinémathèque featuring the "Classic Gold" collection to our groundbreaking live event broadcasts, we've created specialized channels that cater to every interest and viewing mood.

- Our Commitment:

We are committed to:

Preserving and celebrating classic films and television

Delivering high-quality, thoughtfully curated content

Creating an intuitive, seamless viewing experience

Roku App

Thank you for filling out the Roku Questionnaire. It's now under review and will be used for the development of your Roku Channel. Should we miss anything, we will get in touch with you.
